

# River Rouge Schools

## Parental Consent for Enrollment In Virtual Courses

Student Name: \_\_\_\_\_

I understand the commitment and responsibility required of on line courses.

Additionally, I understand that River Rouge Schools will provide the following to help ensure the successful completion and help promote grade progression.

- All courses taken and passed will generate credit towards the pupil's high school diploma or grade progression
- Some courses taken on line will be from a board approved catalog or statewide virtual course catalog. Some of these courses may require a weekly two way mentor teacher interaction.
- The district will create an Education Development Plan which will be kept on file for students taking more than two online classes a semester.
- Some virtual courses will be taken using a software program on the compute where the teacher is in the room monitoring the students. Daily attendance is required.

By signing this form, I give my informed permission to allow my child to enroll in on line courses through River Rouge Schools when appropriate.
